

EFFICIENCY:

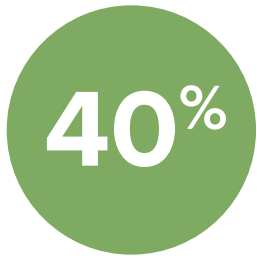

- 40% greater efficiency
- 3x greater lamp life versus fluorescent
- 50,000 hour lamp life

SAFETY:

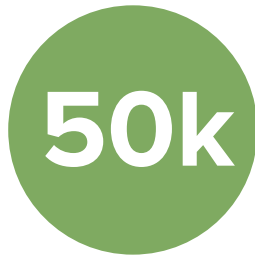

- No mercury
- Negligible light depreciation
- Instant on (no warm up time required)

ENVIRONMENTAL/ WELL-BEING:

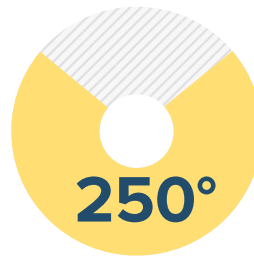

- 100% recyclable
- No UV
- Full spectrum light output

Greater Energy Efficiency

Hour Lamp Life

Illumination Angle

Our Industry-Leading 10-Year Limited Warranty Guarantees Unsurpassed Quality

Retrofit the lighting in your facility without the hassle.

The RVLT High-Performance Uni-Fit T5 LED Tubes are ballast-ready for installation into any new or existing fixture designed for similar fluorescent lamps. No rewiring or ballast bypass is required.

Our exclusive high-energy and high-output frosted T5 tubes can reduce lighting energy use by more than 40% over fluorescent T5 lamps and provide superior lumen output. This, coupled with our industry-leading 10-year warranty, places the RVLT tube ahead of our competitors.
